

## *SIDE DESIGN*

- 1 The lower body composition offers a relaxed yet stately "horizontal flex" that ensures stability while providing a sufficient cabin space. The flush-surface upper door cross section extends throughout the side of the vehicle to project a very Toyota Century-like poise.
- 2 The lower portion of the front and rear bumpers as well as the rockers are chrome plated to express elegance and provide luster to the footing, thus projecting a Toyota Century-like sense of luxury.

## **SALES POINT**

The opening of the rear door is placed low to ensure the smooth in-and-out access of the rear seat occupants.
