

# ELECTRONIC MODULATED AIR SUSPENSION SYSTEM

## PRECAUTION

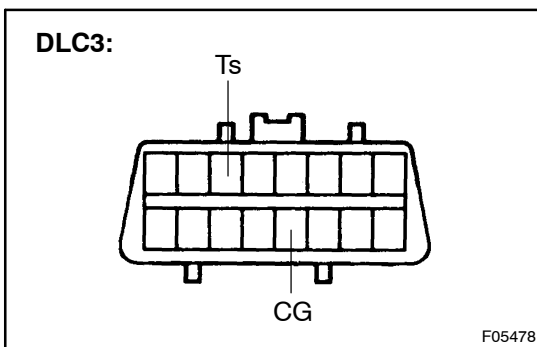

SA01K-03

**HINT:**

The TOYOTA Century equips with the Electronic Modulated Air Suspension.

Observe the following precautions strictly when performing operations on the vehicle.

1. **TURN IGNITION SWITCH OFF WHEN JACKING UP VEHICLE**

**NOTICE:**

If the vehicle is jacked up with the ignition switch ON (engine running), connect terminals Ts and CG of DLC3.

SST 09843-18020

2. **CONFIRM THERE IS NO OBJECT UNDER VEHICLE BEFORE LOWERING JACK**

**NOTICE:**

When the jack is lowered, the vehicle height may be extremely low, because the air in the pneumatic cylinder escapes.

3. **ADJUST VEHICLE HEIGHT TO NORMAL CONDITION BEFORE MOVING**

**HINT:**

When the ignition switch is turned ON (engine running), the vehicle height is automatically adjusted to normal condition.
