

## BODY

### LIGHTWEIGHT AND HIGHLY RIGID BODY

#### ■ DESCRIPTION

The body of the Toyota Century has been made lightweight and highly rigid through the refinement of the shape and construction of each part, optimized allocation of reinforcements, gussets and members, and use of high strength sheet steel.

#### ■ BODY SHELL

The body of the Toyota Century has been made highly rigid through the optimal allocation of materials and the joining construction of the pillars, reinforcements, members, etc., which helped realize excellent joint rigidity.
