

AUDIO SYSTEM

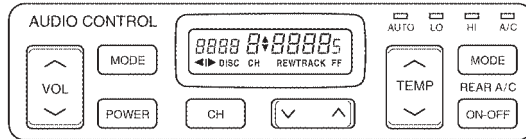

- 1 The audio system consists of a CD changer radio with a built-in cassette player and is provided on all models as standard equipment. The speaker system, which is standard equipment on all models, contains a total of 9 speakers: 4 full-range speakers and 4 tweeters in the door trims, and 1 woofer in the rear tray. (The CD changer is stored in the glove box for the front passenger.)
- 2 An audio control panel and a personal cassette player with earphones are provided in the rear armrest.
- 3 A radio switch-linked rear pole antenna is used.
