INSPECTION PROCEDURE

HINT:

In case of using the hand-held tester, start the inspection from step 1 and in case of not using the hand-held tester, start from step 2.

1 Check wiper motor using hand-held tester.

PREPARATION:

Connect the hand-held tester to the DLC3.

CHECK:

Check that the wiper motor can operate in an ACTIVE TEST.

OK

Proceed to next circuit inspection shown on problem symptoms table. (See page DI-488)

NG

2 Check wiper motor. (See page BE-50)

NG

Replace the wiper motor.

OK

3 Check wireharness and connector between wiper motor and Body ECU (See page N-30).

NG

Repair or replace wireharness or connector.

OK

Proceed to next circuit inspection shown on problem symptoms table (See page DI-488).
